Optimal Skin Care

Proven Hydration. Pure Water.

Water, a basic component of all existence, soothes, invigorates, replenishes and revitalizes. Essential to life, water delivers valuable nutrients throughout our systems. Water is also essential to youthful-looking, irresistible skin. Formulated in Japan, the world's leading skin care market, the Optimal Skin Care System's essential ingredient is remarkably pure water.

Filtered through miles of limestone formations, the legendary water of Asia's Hunza Valley has been celebrated over the centuries for its ability to help support health, vitality and long life. Borrowing from the exotic Hunza land's amazing geological filtration process we are able to produce exceptionally pure water. This extraordinary water is formulated without paraben preservatives and other potentially skin-damaging substances.

This remarkable water now serves as the basis for seven luxurious products that will help keep your skin looking healthy, supple and radiant.

Along with pure water, the Optimal Skin Care System products also include these nourishing, beneficial ingredients:

- ◆ **Trehalose**, a disaccharide that moisturizes and protects skin cells
- ◆ **Iris Florentina Root Extract** with isoflavones to help reduce the visible signs of aging
- ◆ **Yeast Extract**, rich in amino acids, vitamins and minerals, it nourishes the skin and nurtures the layer where skin cells are created.
- ◆ **Artemia Extract** to help retain cell moisture.

The Optimal Skin Care System is:

- ◆ Formulated without paraben preservatives*
- ◆ Fragrance-free
- ◆ Colorant-free**

- ◆ Non-comedogenic (will not clog pores)
- ◆ Allergy-tested
- ◆ No Synthetic oils
- ◆ No animal testing
- ◆ Environmentally friendly packaging

*No added parabens

**Excluding Face Cleansing Cream

Amazing Clinical Data

Testing of the Mannatech Optimal Skin Care System[®]; products revealed incredible results.*

After just one use:

- ◆ 80% of users experienced improvement in hydration

And after eight weeks:

- ◆ 100% of users experienced improvement in hydration
- ◆ 31% reported an improvement in skin tone
- ◆ 93% said their skin was smoother
- ◆ More than 78% said their skin was more radiant and supple
- ◆ More than 21% reported on improvement in fine lines and wrinkles

* Clinical results from Stephens and Associates, Carrollton, TX
